

The following addendum presents the corrections and revision of PSAP Certification Study Guide, approved on March 27, 2020. An addendum is issued to change or alter any technical information in a published standard, substantive in nature, from its original intended form.

Please note that this document is released with the acknowledgement and consideration of all other previous revisions made since the last publication of the standard.

The Hydraulic Institute and its affiliates caution and encourage all users to ensure that they have the latest edition of any HI standard by periodically checking the following URL:

PDF Page 155

Change:
Updated the equation at the top of the page to read as follows:

$$v = \frac{0.4085 \times Q}{d^2}$$

Where

v = velocity in feet per second (ft/s)

Q =flow rate in gallons per minute (gpm)

d =pipe inside diameter in inches (in)
